UNITED DEMONSTRATION  
*for the redistribution of wealth*

**THEY SAY  
CUTBACK?**

**WE SAY  
FIGHT BACK!**

**NOVEMBER  
28<sup>th</sup>**

**1 PM  
PARC JARRY**  
(Corner of Jarry & St-Laurent)

In addition to the ongoing mobilisations against austerity, many social movements are organising this fall **against the destruction of our public services and social programs.**

- Organising by public sector workers for better working conditions and against compressions that endanger the quality public services.
- Organising by community groups for their survival in a context of chronic under-funding.
- Mobilisations for public schools and against cutbacks at the primary, secondary, college, and university levels.
- Actions by the World March of Women.
- Organising against cutbacks to welfare, social housing, and other cutbacks targeting people living with disabilities.

### **THE TIME IS NOW.**

While we struggle on all sides against the demolition of our public services, the Couillard government **is preparing 1.2 billion dollars of additional cutbacks and the installation of further taxes and tariffs.**

What awaits? Permanent austerity.

For the past 15 years, Quebec has denied itself billions of dollars by diminishing the financial contribution of banks, multinationals and wealthy people. By recovering this money, we could **adequately finance our social programs and our public services!** Quebec could finally respect its obligation to ensure that human rights are respected on its territory.

**On November 28th LET'S WALK TOGETHER for a real redistribution of wealth and against this pillaging of our social infrastructure.**

We won't let the government divide us – we'll force the government to recover the funds it needs:

- By reinstating the tax on capital for financial institutions
- By increasing the number of tax brackets to ensure a progressive tax system where wealthier individuals contribute their fair share.
- By increasing taxes on big companies instead of diminishing them.
- By fighting tax evasion
