SHARE THE WEALTH! SAVE OUR SOCIAL SAFETY NET!

After years of austerity policies, the Couillard Government has announced a record surplus for 2017. Despite this huge surplus, the financing for social program, public services, and autonomous community groups is still insufficient and doesn't repair the damage created by years of cutbacks.

Public Services are Under Threat

- Severe cuts in health and education have affected the population
- Withdrawal from subsidised day-care has diminished the quality of service
- Differential rate hikes have impoverished families

Social Programmes are Under-Funded

- Welfare benefits cover barely half of a person's basic needs
- The paltry construction of social housing cannot respond to the urgent need for quality affordable housing.
- Austerity measures have also put pressure on community groups that have been facing chronic under-funding.

Cuts to Public Services, Social Programmes, Autonomous Community Action—the Government continues to pillage our collective coffers!

We have the means to re-invest : not only is the surplus gigantic but the government could find billions of dollars through equitable tax measures, such as those proposed by the Red Hand Coalition.

On Saturday October 28th, join Robin Hood's band of merry men, women and gender non-binary people to demand a massive re-investment in public services, social programs, and autonomous community action.

Meet at 1pm at Villeray Parc, in Montreal (on the Corner of Christophe-Colomb and Jarry—métro Jarry)
